### **General Directions**

The Security Officer will be responsible for all duties on his/her post as set forth in these Post Orders and the Security Officers Guide and will be able to respond to any emergency in accordance with the services rendered. Security Officers assigned permanently to the post, after reading and having understood this manual will sign the signature page and review them weekly to stay abreast of any changes. The Security Officer will indicate such review on their Activity Report. Supervisors shall ensure that this policy is enforced. Temporary Security Officers, fill-in Security Officers and Security Officers who work this post occasionally will review this manual on each occasion of assignment and indicate it on their Activity Report. These guidelines should be followed at all posts. Refusal to follow these instructions can lead to disciplinary action up to and including termination of employment.

The primary duties of the Security Officer are to always remain alert, observe and report any security violation and prevent anything of a nature, which would adversely affect the security or safety of the property, or persons he/she is assigned to protect. Prevention by apprehension or detention is an extremely sensitive legal matter, and Security Officers will obtain permission from the MHA before resorting to these means. Under no circumstances should a suspected party be threatened, manhandled, coerced, or intimidated in any way. The officer must be 100% sure that an irregularity exists (have physical proof) before detaining an individual. Usually, if employees are involved, MHA has a standard policy pertaining to this type of situation, and this policy should be strictly adhered to.

### **Security assists in creating a secure environment through:**

- Facilitating an atmosphere of safety.
- Providing assistance during emergencies.
- Functioning as a central contact point for communications.

### **Typical Emergency Response Scenarios**

- Recognize the condition
- Sound the alarm
- Call proper response agency
- Make MHA emergency notification calls
- Follow written emergency procedures and policies
- Notify your supervisor
- **DON'T GIVE UP UNTIL YOU MAKE CONTACT WITH SOMEONE!!**

### **Security Officer Conduct**

- Security Officers will always conduct themselves in a professional manner, both on and off duty.
- Security Officers will always be courteous when performing their duties; however, they should not engage in unnecessary conversation. This is to say they should never engage in "bull sessions", joke telling sessions, or gossip sessions with co-workers, MHA employees, residents, or contractors.
- Security Officers will maintain their uniform appearance during their time on duty. Shirt tails will be tucked, trousers will be at the waist with a belt and shoes will be on, tied or otherwise secured to the feet.
- Security Officers should never use profane language while on duty.
- Security Officers will not drink alcoholic beverages on duty or report for duty under the influence of alcohol or with the smell of alcoholic beverages on their breath, nor will they report for duty with alcoholic beverages in their possession.
- Security Officers will not be under the influence of any illicit or prescribed drugs that will alter their alertness or ability to respond to emergency situations.
- Security Officers will not engage in "horse play" or practical jokes while on duty.

## **Security Duties**

When an officer is on duty they need to be aware of all situations. These duties are general guidelines but not limited to:

### Security Console

- Handle all incoming visitors- proper authority, check in, check out etc.
- Handle all incoming calls
- Monitor CCTV cameras
- Monitor event screen and if necessary, assist in report generations
- Respond to campus emergency situations, as necessary

### Security Patrols

If at any time during your shift a fellow co-worker requests your help, do your best to assist them as needed. Offer your services at any time to escort employees/tenants to their vehicles. This is particularly important after dark. At a minimum, during low traffic periods, try to visually monitor people exiting the building until they are safely in their vehicles.

All results of patrols and situations must be reported on your daily log in a reasonable amount of time. Any out of the ordinary notes need to be highlighted in a yellow marker or highlighter.

- Perform security patrols:
  - All stairwells
  - All hallways
  - All auxiliary closets
  - Parking areas
  - Playgrounds
  - Site campus
  - Common areas
- Monitor parking spaces and ensure compliance with MHA regulations regarding employee, resident and visitor parking
- Conduct patrols at random periods. Do not set a pattern of patrolling at the same time interval or on the hour or half hour. You want to be unpredictable when you patrol.
- Respond to campus emergency situations, as necessary
- Perform security escorts as necessary
- Monitor “tailgating” and possible security breaches (remember to politely challenge people who are not wearing proper identification)
- At no time are you to enter tenant space unless there is an immediate emergency (fire, medical etc.).

When patrolling the interior of the building, be on the lookout for:

- Loiterers- politely and firmly ask them to leave
- Water leaks or dangerous spills
- Unusual sounds/smells or alarms
- Unidentified people
- Doors or card readers that are not working

When patrolling the exterior, be on the lookout for:

- Loiterers- politely and firmly ask them to leave
- Maintenance problems
- Unsecured doors
- Suspicious vehicles or persons
- Trash or debris
- Broken windows
- Illegal activities

**\*\*\* Every officer needs to make sure that they do a complete patrol of the interior and exterior of the buildings as often as your shift will allow. This includes confirming exterior doors to be locked and secured at all times.**

### Telephone Guidelines

One of the principle responsibilities of Security is handling after-hours phone calls and often receiving incoming calls during regular business hours. Since Security indirectly represents MHA to anyone who calls in, it is important that Security presents themselves in a detailed and courteous manner.

#### The Importance of Answering Telephones

- All calls related to security needs should receive a fast, courteous response. You never know who you are talking to at the end of the line!
- Answering the telephone is one of the most important functions of Security. The phone lines are the main source to get in touch with Security if an emergency event arises. **BE PREPARED TO RECEIVE INFORMATION!**

#### How to Answer Phones

- Every call that comes in needs to be answered, whether it is internal or external. If a second call comes in while you are on another line, put the caller on hold and answer the second line.
- When answering any phone call, be sure to start with “XXXX Security” and your first name. For example: “XXX Security, this is Joe, how can I help you?”
- Speak in a clear understandable voice at a level plainly audible for the person speaking to.
- Everyone needs to use the phone during work but keep personal calls to a minimum. All personal calls should be limited to local calls unless authorized by management.

### Special Access for Vendors and Contractors

- All contractors must have proper authority to be on site before they sign in.
- Contractors **MUST** check in and out before entering or exiting the building....NO EXCEPTIONS! Security will ensure this.
- All contractors must inform Security exactly what type of work they will be doing and the location of the work.
- If necessary, Security or Facilities will escort contractors or vendors to the appropriate work location.
- After all vendor/contractor work is completed, Security will sign them out before exiting the property.
- In the event of a problem/incident, Security will complete an Incident Report with as much information that can be compiled as soon after the problem/incident as practicable. If you recall a detail after completing the initial report, submit a supplemental report. This report should then be submitted to the Facility Manager.

## Effective Report Writing

The Daily Activity Report plays an important role in the officer's daily work. The officer uses this form to advise all parties of what has occurred during his or her tour of duty. It is the means of documenting the vulnerable areas have been inspected, that no employees have left a locked area unlocked, that no accidents occurred, that safety hazards and fire hazards do not exist. In addition, MHA has a right to know who visited the site. The preparation of the Activity Report is, therefore, a critical security function.

Please note that all rounds made, and telephone calls made **MUST BE** logged in this report.

- All activity, usual or unusual, during a shift must be detailed in your report. Please note that your report tells, MHA what has occurred during your shift. The report is usually the only way MHA knows if anything unusual has happened. **NO DETAIL IS TOO SMALL TO NOTE IN THIS REPORT!**
- Keep this report accurate and updated on an hourly basis. Begin filling this report out when you arrive for duty. A blank report two (2) hours after your shift begins means that you have not started working yet!
- Use multiple report sheets or the back of the form if there is more information that needs to be put in your report.
- For occurrences that are unusual, and you need to give more details than you have room for in your report, please fill out an Incident Report. A common notation in your Activity Report would be: Saw trespasser on premises, see attached incident report. You can then detail everything pertaining to this situation in the incident report instead of your service report.

Incidents of all sizes and nature will occur. Some incidents will require extensive details while others may not. Use the below guidelines to capture as many details as possible. Remember, your report can and may be used in a court of law in the event of a major incident.

### **WHO?**

- was the victim?
- was the complainant?
- discovered the incident, condition or crime?
- saw or heard anything that might be important?
- had access to the particular area?
- was notified?
- responded?

### **WHAT?**

- really happened (vandalism, damage, physical harm)?
- if any, evidence was found or gathered?
- was done with evidence?
- action did the officer take.
- time did the incident occur.
- if any, what weapons or tools were used?

### **WHERE?**

- did the incident occur?
- is the entry the suspect used?
- was the suspect last seen?
- were the witnesses during the event?
- was the evidence found or taken?

### **WHEN?**

- did the incident take place (yesterday, today, AM or PM)?
- was the incident discovered?
- did the proper authorities arrive at the scene?
- will a complaint be assigned?

### **WHY?**

- did the suspect pick that particular time?
- did the suspect pick that particular point of entry?
- are the witnesses reluctant to give any additional information?

The specifications below are in general terms and do not limit the Contractor to specify methods of performing the security guard services; however, the Contractor is responsible for using the most effective (as known by experienced security guard firms) methods and techniques of performing security guard services to assure the protection of all persons and property within the boundaries of the Development, more specifically:

The MHA considers the security, offered to the housing sites, the main advantage it can use to provide safe and decent housing to the residents of this building. Anything that reduces the building's security, or that causes tenants to lose confidence in the building's security (to the extent that the tenants feel unsafe) will cause the MHA to take corrective actions. Such corrective actions might include: working out new security procedures with the Contractor, requesting the Contractor replace incompetent or uncooperative guards, or terminating the Contract.

### **TERMINATION FOR ANY REASON**

If, for any reason, either party (MHA or the Contractor) desires to terminate this Contract, it may do so by a notice in writing to the other party at least thirty (30) days in advance of such termination.

In the event funds necessary to finance the purchase of the services are not available, MHA may cancel the award and all binding agreements will become null and void upon no less than twenty-four (24) hours' notices in writing to the Contractor. Said notice shall be delivered by email with a verification of delivery and return receipt requested. MHA shall be the final authority as to the determination of the availability of funds.
